Booth height:

If you do not have sufficient outside room height available ask us, we can find solutions. E.g.:

- Mount the ventilation kit (inside) instead of the muffler to gain 17 cm.
- Offer special heights when ordering.

Available dimensions:

The here shown dimensions are examples only. Really you can design your booth from 120 x 120 cm up to 600 x 900 cm with **any imaginable combination of dimensions in steps of 30 cm**. The internal ceiling height can measure up to 270 cm inside.

Windows and doors:

Extra windows and doors can be added to the projects. And, most important: **their position can be exchanged later.**
